TECHNICAL PROJECTS

Face Recognition with Anti-Spoofing Attendance Management System | *Freelance Project* | *2025-2026*

- Built a multi-department, section-based attendance system with adviser-supervised sessions, face-recognition check-ins, anti-spoofing validation, and role-based access for Super Admin, Department Head/Councilor, and Adviser users.
- Developed the Java/Spring Boot backend and React frontend; integrated a Python machine-learning service using FastAPI, InsightFace, ONNX Runtime, and OpenCV.
- Integrated Supabase and applied Layered Architecture and object-oriented programming.

IssueTracker - Issue Tracking REST API | *Personal Project* | *Ongoing*

- Developing a RESTful API using C#, ASP.NET Core, Entity Framework Core, and SQL Server, with DTOs, data validation, and asynchronous operations.
- Applying Layered Architecture, Model-Service-Controller patterns, dependency injection, and centralized exception handling.
- Configuring containerized deployment workflows using Docker, GitHub Actions (CI/CD), and GitHub Container Registry (GHCR).

Portfolio Website | *Personal Project*

- Built a portfolio website with React and TypeScript, including reusable components, responsive navigation, and theme switching.
- Added frontend tests with Vitest and deployment workflows with production build checks.

WORK EXPERIENCE

Photography Assistant and Photo File Organizer | *Part-time* | *2025-2026*
Cover and Pages Corp. | Manila, Philippines

- Organized JPEG and CR2 photo files for more than 500 students per day and assisted with photography equipment setup and operations.

McDonald's - Customer Service Crew | *Full-time* | *2023*
Venice Grand Canal Mall

- Provided customer service and supported daily restaurant operations as a crew member.
